## CLASS D AMPLIFICATION

HIGH QUALITY EFFICIENT POWER

### **CLASS D Amplifiers**

The Debut Connex speakers feature a 50-Watt x 2 Class D amplifier. These amplifiers run very cool and efficient.

## HDMI (ARC)

### **HDMI (ARC Input)**

Simply connect the HDMI ARC output from your compatible television and your TV's remote control will control the volume of the Debut Connex speakers, greatly simplifying operation.

## USB

### **USB Input**

Simply connect the Debut Connex to your Windows or Macintosh computer with USB and all sound will now come out of the Debut Connex speakers. Volume can also be controlled using your computers volume control. Playback up to 96KHz 24-Bit Audio.

### **Bluetooth with aptX**

Playing your music never got easier. Simply connect your phone with the Debut Connex over Bluetooth and you are ready to go. Volume can be controlled via your phone as well. AptX ensures high quality audio from compatible phones.

## Built-in Phono Pre-Amp

### **Built-in Phono Pre-amp**

With the built-in phono pre-amp simply connect just about any turntable and you will be listening to your favorite vinyl instantly.

**ELAC** Debut Connex

## HDMI ARC

Simply connect the supplied HDMI cable from the HDMI ARC connector on your TV to the HDMI ARC input on the DCB41 and the volume of the speakers will now be controlled via the TV remote.

**ELAC** Debut Connex

96Khz 24-bit USB

Simply connect a USB cable from your Windows or Macintosh computer to the USB input on the DCB41 and you can enjoy high resolution audio playback up to 96kHz 24-bit. The speaker's volume are now controlled by the computers volume control.

**ELAC** Debut Connex

## Phono Input with EQ

The DCB41s have a built-in phono equalizer so you can simply connect just about any turntable directly to the speakers using standard RCA cables. A ground screw is also included.

**ELAC** Debut Connex

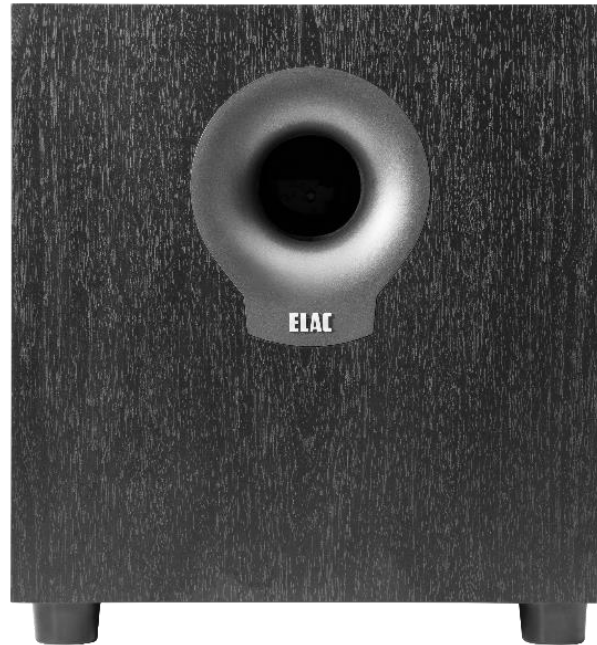

Bluetooth with aptX

Playback your favorite music or podcast from your phone, tablet or computer using Bluetooth. To ensure the best possible quality the DCB41's feature aptX technology delivering true CD quality audio from compatible phones.

**ELAC** Debut Connex

## Subwoofer Output

A subwoofer output on the DCB41's allows for the connection of just about any powered subwoofer to further enhance both music and movies.

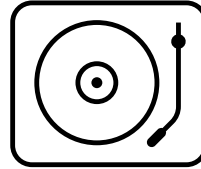

## Remote Control

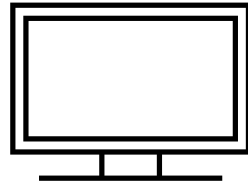

Dedicated input buttons make it very simple to choose what you want to listen to. The Bluetooth button both chooses Bluetooth as a source or if held down initiates the pairing process. The front LED light on the speaker can be defeated by simply pressing the LED button on the remote.
